

ACCREDITATION & CERTIFICATION

Loomis is assessed and registered to meet the requirements of **BS EN ISO 9001:2015** (Loomis was the first CIT Company within the UK to achieve this standard).

Loomis is also assessed to additional industry standards which include:

- **BS7872: 2011** - Operation of Cash in Transit Services.
- **BS7858: 2019** - Security Screening of Personnel Employed in a Security Environment.
- **National Security Inspectorate (NSI) Passport Scheme**

An annual external audit, combined with a robust internal audit program, ensures the standards are maintained and Loomis is proud to have achieved a Cash Services GOLD certification from the National Security Inspectorate.

Loomis's documented quality management system defines policy and procedures which help to achieve quality objectives and exceed customer expectations.

Scope - The provision of secure transportation services for cash and valuables includes the following activities:

- Transport and distribution services
- Cash processing services
- Secure storage and vaulting
- ATM services

SIA – Loomis is an approved contractor under the Approved Contractor Scheme (ACS) introduced by the Security Industry Authority (SIA). ACS status means Loomis meets the exacting standard for quality and professionalism. All employees requiring a Security Industry Authority (SIA) license are trained, using Loomis's own approved trainers and facilities, to the national standard for CVIT NOCN level 2 award in Cash & Valuables. This training is in-line with the requirements of the SIA and the British industry standard for 'Manned Security Services Cash-in-Transit services (collection and delivery) Code of Practice - BS 7872:2011 issued by the BSI.

BSIA – Loomis is a member of the British Security Industry Authority so has a strong influence in the UK Security Market.
